

# Samuel Okundalaiye

Full stack Web Developer

 samuelokundaiye@gmail.com    +2348107938943    my-portfolio-gray-nine.vercel.app    La-Phoenix

A developer with hands-on experience delivering scalable, production-grade web applications across AI, enterprise, e-commerce, manufacturing, and social platforms. Proven track record of building business-critical solutions, optimizing system performance, and collaborating with cross-functional teams to deliver reliable software that drives operational efficiency and user engagement.

## SKILLS

### Backend Development

ASP.NET, C#, Node.js (Express.js, NestJS), Clean Architecture

### DevOps & Development Tools

Docker, Git, Antigravity

### Frontend Development

React.js, Angular

### Software Architecture & Design

Clean Architecture, SOLID Principles, RESTful API Design, Use Case Diagrams, Data Flow Diagrams (DFD), Entity Relationship Diagrams (ERD)

### Databases

PostgreSQL, MySQL, MongoDB, Database Design

### Testing

Unit and Integration testing

## EXPERIENCE

### Full Stack Web Developer, Ithena

10/2022 – 09/2023  
Virginia, USA

- Developed and enhanced features for iGEMBA, digitizing Gemba walks, KPI monitoring, and task management, reducing manual operational processes by 15-25%.
- Collaborated with cross-functional teams to deliver 20+ production-ready features, improving shop-floor efficiency and reducing issue resolution time by 20-30%

### Frontend Developer, Kicest

11/2024 – 11/2025  
Remote

- Developed and enhanced core features for Kicest, an e-commerce platform, contributing to the successful delivery of 15+ production-ready features that streamlined online store, inventory, and order management.
- Optimized backend services and database operations, improving API performance by 15% and reducing order processing time, enabling a faster and more reliable shopping experience for merchants.

### Full stack Web Developer (Backend Heavy), DeCloud23 Technologies

03/2025 – 05/2026  
Ibadan, Nigeria

- Contributed to the development of Zheeta, a social networking and affiliate marketing platform, by implementing scalable frontend and backend features that improved media sharing, user engagement, and platform functionality, helping deliver 10+ production-ready features on schedule.
- Developed and optimized core services for Games4Africa, a digital gaming platform for indigenous African games, by building and maintaining gameplay and backend functionality, improving application performance and reducing reported issues by 20-35%.
- Collaborated with cross-functional teams to translate business requirements into scalable solutions across both platforms, troubleshooting production issues, optimizing APIs and database operations, and contributing to a more reliable user experience for 20+ users.

### Backend Developer, ReenEdge Solutions

10/2025 – 06/2026  
Nigeria

- Developed and enhanced 10+ core features for Whatsella, enabling businesses to create storefronts, automate customer interactions, and manage Business WhatsApp accounts through a unified platform.
- Optimized backend services and AI-powered automation workflows, improving message delivery and system performance by 20%, resulting in faster customer engagement and more efficient business communication.

## Projects

### Little Phoenix AI Assistant

03/2026

Designed and developed LittlePhoenix AI, an AI-powered document management and collaboration platform, by implementing intelligent document assistance, real-time collaboration, and secure document workflows, resulting in a production-ready application that streamlined document creation and team collaboration.

### Bugtracker

11/2025

Designed and built a multi-tenant issue tracking platform as a personal project, implementing tenant isolation, role-based access control, project and sprint management, and issue tracking, resulting in a secure, scalable application that supports multiple organizations.

## EDUCATION

### Bachelor's in Computer Science, University Of Ibadan

2023 – 2028

A first class (3.79/4.00) student with growing knowledge in System Architecture/Design, Algorithms, Data structures, Software Development Life Cycle and other Technology related concepts.

Ibadan, Nigeria
